

TECH-FLO® ALL SEASON BLEND**2-6-2 + 10 Essential Plant Nutrients**

Total Nitrogen (N)	2.0%
0.2% Ammoniacal Nitrogen	
1.8% Urea Nitrogen	
Available Phosphoric Acid (P ₂ O ₅).....	6.0%
Soluble Potash (K ₂ O).....	2.0%
Calcium (Ca).....	4.5%
Magnesium (Mg).....	0.5%
Sulfur (S).....	2.5%
Boron (B).....	0.25%
Cobalt (Co).....	0.08%
Copper (Cu).....	0.5%
Iron (Fe).....	1.0%
Manganese (Mn).....	1.5%
Molybdenum (Mo).....	0.1%
Zinc (Zn).....	2.0%

Derived from: Ammonium Phosphate, Urea, Calcium Phosphate, Ferrous Phosphate, Magnesium Phosphate, Potassium Phosphate, Zinc Phosphate, Manganese Phosphate, Manganese Sulfate, Manganese Oxide, Calcium Sulfate, Copper Sulfate, Boric Acid, Ammonium Molybdate, Cobalt Sulfate.

CONTAINS NO NITRATES, CHLORIDES, OR CHELATES

PRODUCT DESCRIPTION

TECH-FLO ALL SEASON BLEND is a flowable foliar nutrient blend consisting of pH-neutral, chemically-reacted components that have been micronized and formulated in a stable aqueous dispersion. The active ingredients are present in the form of finely ground particles that are slightly soluble in water and release nutrients over a prolonged period of time. It is non-abrasive, mixes readily, and stays well dispersed in the spray tank. Its dried deposits adhere strongly to foliage and resist washing off by rain or overhead irrigation. TECH-FLO ALL SEASON BLEND supplies higher levels of more essential plant nutrients than any other product, feeds the plant longer, is non-corrosive, and safe on foliage.

GENERAL USES

TECH-FLO ALL SEASON BLEND is the preferred product for use in a general nutritional spray program as it is designed to maintain adequate levels of essential nutrients throughout the growing season. It is recommended for use on all crops and in all areas. It is widely used in general nutritional spray programs on green leafy vegetables, root crops, berries, and fruit trees to improve plant vigor and obtain yield and/or quality responses. It is excellent for use on tropical crops such as bananas and pineapple that require frequent spray treatments. Where specific nutrient deficiencies exist, it should be augmented with an appropriate high-analysis TECH-FLO or TECH-GRO product.

APPLICATION METHODS AND TIMING

TECH-FLO ALL SEASON BLEND may be applied by any type of spray equipment. It is suitable for aerial application by either fixed wing or helicopter, and by dilute and concentrate ground rigs. Pre-bloom or early season application is recommended on all crops. Applications may be repeated as needed throughout the growing season.

*FOR SPECIFIC CROP RECOMMENDATIONS, INCLUDING MATERIALS, RATES, AND TIMING,
PLEASE READ THE PRODUCT LABELS AND CONSULT A NUTRI-TECH REPRESENTATIVE.*

COMPATIBILITY

TECH-FLO ALL SEASON BLEND is compatible with spray oils and with many commonly used pesticides, so it may be added to crop protection sprays when the timing of application coincides. It may be combined with other TECH-FLO, TECH-SPRAY, or TECH-GRO formulations when additional nutrients are desired. If Nitrogen is needed, the use of Urea with a low-biuret content is recommended.

PLEASE CONSULT A NUTRI-TECH REPRESENTATIVE FOR DETAILED COMPATIBILITY INFORMATION.
